

Height Safety & Confined Space Specialists

Construction, Mining, Major Utilities & General Industry

Our purpose is to deliver excellent and innovative Height Safety and Confined Space solutions to meet your needs through a range of high quality products and services so you can focus on your core business.

Access Unlimited has been operating since 1998 and offers services and products in Height Safety, Confined Space and Gas Detection equipment.

Access Unlimited is able to provide a unique, complete and superior service enabling you to achieve your Height Safety and Confined Space goals. Our experience and commitment to excellence have earned us a reputation as the sought after provider of Height Access Systems, Industrial Rope Access, Confined Space and Gas Detection equipment in Western Australia. Access Unlimited sets the benchmark for what the industry requires.

We also offer a high quality product range which includes roof anchors, walkway and ladder systems, platforms, height safety systems and industrial rope access as well as inspection and testing services. We have the ability to engineer safety systems to meet and exceed Australian Standards.

Our team will work with you to design and construct a system that is engineered for maximum safety and comfort every time.

Access Unlimited staff have extensive experience and knowledge of the legislative and Australian Standards requirements of Height Safety and Confined Space in the Building & Construction industry, Roofing Industry, Mining, Major Utilities and General industries.

All works are carried out in strict compliance with the OS&H Act, Regulations, Codes of Practice and Australian Standards.
