GasAlertMax XT

Multi-Gas Detectors

H₂S

The NEW GasAlertMax XT portable and non-intrusive simultaneously monitors and displays up to three gases: hydrogen sulfide (H₂S), carbon monoxide (CO), and combustibles (%LEL). The compact and rugged XT features a non-intrusive integrated sampling pump for performance, reliability and ease-of-use. SmartSample technology improves remote sampling by creating a consistent, uniform flow. One-button operation allows use even while wearing gloves. Tamper-proof options enable the instrument to be customized for specific application.

Features

- Integrated sampling pump
- SmartSample technology and power management provide reliable block detection and low battery warning
- Easy-to-read, multi-language LCD displays gas concentrations (H₂S, CO, O₂ and combustibles) simultaneously
- Visual, vibrating and audible alarm
- Low, High, TWA (time weighted average) and term exposure limit) alarms
- LCD icons help with fast and easy operation
- Built-in concussion-proof boot
- Simple auto-calibration procedure
- Rechargeable batteries provide end-of-shift battery life
- Best in class block detection with smart sensor
- Easy, one-button interface for simple operation
- Flexible user options minimize training
- Tamper-proof field operation
- Multi-language support in English, Spanish, and Portuguese
- Compatible with MicroDock II auto-charging system
