# MicroDock II

## Cost-Effective Instrument Management

The MicroDock II is the world's most advanced, compact and affordable automatic calibration, testing and data management system for portable gas detection equipment. Compatible with BW's GasAlertMicro 5, GasAlertMicro 5 PID, GasAlertMicro, GasAlertMicroClip, GasAlert Extreme and GasAlertClip Extreme family, the MicroDock II is expandable to up to 10 docking modules (including up to 6 charging units).

- Fully automatic "hands-free" calibration & functional bump test
- Automatically verifies performance of audible and visual alarms
- Stores and updates calibration records in the MicroDock II, as well as in the GasAlertMicro 5, GasAlertMicro 5 PID, GasAlertMicro, GasAlertMicroClip and GasAlert Extreme detectors
- No computer required
- Entirely self-contained
- Fully portable
- Lightweight and mobile
- Operates via line power or a set of four C-cell batteries
- Add additional self-contained docking modules to system via simple, plug-in connections-no external pressure transducers or gas lines necessary
- Simplify record keeping
- Verify proper performance
- Reduce maintenance costs
- Multiple MicroDock II systems can be connected via a LAN
- Multi-language support in English, French, German, Spanish, and Portuguese
