SALA EXOFIT BASIC HARNESS

400M-0000 Features:

- Large adjustable fall arrest rated rear stand-up D-ring, with built-in impact indicator for easy inspection and added safety.
- Quick-connect buckles.
- Reflective piping enhances visibility in low-light conditions.
- Removable leg and back padding for easy cleaning (constructed from 3D mesh & breathable lining).
- Adjustable chest, shoulder and leg straps.
- Pelvic strap for added security.
- No roll out guarantee (when connected to a DBISALA lanyard or SRL with a H250 model hook).
- Comfort guarantee
- Bonus “perfect fit kit” harness accessory pack (while stocks last)
- Size = Medium (Small and Large harness sizes also available)
- Certified to AS/NZS 1891.1.

Ultimate Comfort

- The ExoFit™ XP incorporates new material technology to deliver the ultimate in comfort.
- Its state-of-the-art 3-D mesh lining allows moisture to evaporate and cool air to circulate throughout the shoulder, back, hip and leg pads.
- The padding is removable and completely washable - an industry first.
- The cushioned leg and hip straps offer comfort and additional security during a fall.
- The “soft” edging prevents chafing and the lightweight webbing is strong without feeling stiff and coarse.

400M-0000**

Ease-of-Use

- The ExoFit™ XP's superior "X" design wraps around the wearer for the ultimate in no-tangle donning and comfortable security.
- The spring loaded "stand-up" dorsal D-ring ensures an easy connection to a lanyard or SRL without straining to reach it.
- The harness incorporates a 5-point adjustment system and an adjustable dorsal D-ring for a perfect fit every time.
- Our industry-first quick-connect buckles make donning as easy as 1-2-3.
- The "easy-grip" end tabs provide something to hold onto when adjusting the straps.

Total Safety

- Another industry-first is the built-in impact indicator on the dorsal D-ring.
- Web strap keepers prevent dangerous entanglements.
- A properly positioned pelvic strap distributes forces during a fall.

Available in the following standard configurations:

400M-0018 ExoFit™ XP Riggers Harness
410M-0016 - ExoFit™ XP Frontal Attachment Crossover Harness
420M-0002 ExoFit™ XP Confined Space Harness
450M-0016 ExoFit™ XP Tower Workers Harness.

Comfort Guarantee

From the moment you put on the ExoFit™ XP we're sure it will exceed anything you've ever worn in a fall protection harness. So sure, in fact, that if you're not completely satisfied, return it within 30 days for a full refund. There's nothing to lose, except that uncomfortable feeling you get while wearing other harnesses. Guaranteed.

The ExoFit™ XP design is based on the concept of a single piece of material constructed in the shape of an "X" that wraps around you for the ultimate in no-tangle donning and comfortable security. From the moment you put it on, the ExoFit™ exceeds anything you've ever worn in a fall protection harness. The materials are soft and lightweight, yet extremely durable. The shoulder, hip and leg padding is built-in so it can't slip. The breathable 3-D mesh lining guarantees you'll stay dry and comfortable every day. And the quick-release buckles are fast, efficient and totally secure!

It even has a memory! Put on the ExoFit™ XP Harness, adjust it, and from then on it remembers the adjustment. The next time you're on the job, slip it over your shoulders like a vest, snap the ExoFit™ XP buckles and you're ready to work. It's faster than putting on and buttoning up your shirt!

Every DBI-SALA harness combines maximum comfort, freedom of movement and ease of use without sacrificing safety. All DBI-SALA harnesses are designed to securely retain you in case of a fall and distribute the impact forces throughout your body.

Whether you wear a harness 4 hours a day or 14 hours a day, it needs to feel good and fit right for optimum comfort, safety and productivity. DBI-SALA harnesses are designed to fit you - no matter what your size or shape!
